OBJECTIVE

Computer Science graduate with hands-on experience building full-stack applications using Java, Spring Boot, React.js, REST APIs, SQL, and MongoDB. Strong foundation in Data Structures & Algorithms, OOP.

EDUCATION

Bachelor of Computer Science, Nist University

2025

Higher Secondary Education (Science Stream), Bhadrak Higher Secondary School

2019 - 2021

SKILLS

Technical Skills	Java, Java 8, JavaScript, SQL
Tech Stacks	HTML5, CSS3, JavaScript, ReactJS, ExpressJS, NodeJs, MongoDB
Tools	Git, GitHub, Postman, Maven
Core CS	OOP, JDBC, Collections, Multithreading, DBMS, Operating Systems, Computer Networks, Data Structures & Algorithms

PROJECTS

Resume Builder. Developed a full-stack Resume Builder using React, Node.js, and MongoDB, featuring user authentication (login/register), multiple resume templates, real-time preview, and PDF export. Implemented authentication using JWT and integrated REST APIs for dynamic data handling. Enabled 100+ users to create resumes with ~70% faster customization and improved overall user experience.

AI-Powered Movie Insight Builder. Developed an AI-powered movie analysis application integrating external APIs and LLM-based insights. Designed prompt workflows for sentiment analysis and content summarization. Implemented responsive UI and secure environment-based API handling.

Diabetic Retinopathy Detection using Machine Learning and Texture Features. Built a model using texture-based features (GLCM) to detect diabetic retinopathy from retinal images with 90 percent+ accuracy. Reduced false positives by 15 percent, improving early diagnosis and speeding up medical intervention.

Coursework

- Object – Oriented Programming, Database Management System, Operating System, Data Structure and Algorithms

LEADERSHIP

- Organized a workshop focused on Web Development, attracting more than 500 students and delivering practical training along with insights into current web technologies
- Runner-up in Inter college coding competition among 300+ participants.
